

COMING SOON TO
A CITY NEAR YOU:

LOCATION:

Albuquerque, NM

VENUE:

DATE:

March 25, 2010

Sign-in: 8:30 am

Workshop: 9:00 am - 3:30 pm

The Living Building Challenge is attempting to raise the bar. It defines the most advanced measure of sustainability in the built environment possible today and acts to diminish the gap between current limits and ideal solutions. This certification program covers all building at all scales and is a unified tool for transformative design, allowing us to envision a future that is Socially Just, Culturally Rich and Ecologically Benign™.

The mission of the International Living Building Institute is to encourage the creation of Living Buildings, Sites and Communities in countries around the world while inspiring, educating and motivating a global audience about the need for fundamental and transformative change.

LIVING BUILDING CHALLENGE

Living Building Challenge has swept North America. There are now more than sixty projects in process from coast to coast pursuing certification under this vigorous performance standard and interest continues to rise. The ROAD SHOW is a tour of in-person introductory workshops to share the tenets of the Challenge with advanced practitioners throughout the United States and Canada.

Learning Objectives:

- Identify the key components of the Living Building Challenge
- Describe the Living Building Challenge Community resources and certification process
- Discuss the rationale for restorative design principles
- Understand successful strategies for compliance with each performance area (Site, Water, Energy, Health, Materials, Equity, and Beauty)
- Recognize financial, regulatory and behavioral barriers and incentives related to high performance design

Cost:

\$295/Living Building Community members

\$345/non-members*

Members of Partner Organizations are eligible for a 10% discount see the Road Show website for details.

Includes:

Instruction from expert faculty

FREE one-year membership in the Living Building Community (\$125 value)

Continental breakfast & lunch provided

Approved for 6 AIA Learning Units
